Subject: anti-trust law abuse opinion

I want to state that I do NOT approve of what is going on with the States accusing Microsoft. Microsoft is merely trying to survive among the many rivalries and have already given a lot to the demands, more so than should be required. The rivalries and competitors as you can see are playing around with no ropes tied to them taking advantage of the opportunities to win unrighteously and unfairly, while Microsoft, of all the good they have done, have way too many ropes tied and this is unjust. Why penalize a company for being too good or for being too helpful? I want the Clinton-era Anti-trust law abuse to end and it should end now! Our tax money is being wasted by this type of trial.
